Blast Freezers – BASIC Version

The BASIC range of blast freezers are the ideal appliance for chefs, pastry and ice cream makers who need reliability and simplicity. They are fitted with a simplified electronic control panel, intuitive and user-friendly, which allows chilling cycles to be set extremely rapidly.

Chilling or freezing cycle can be selected by time or according to a probe inserted in the core of the product.

A wide range of products, from small countertop freezers with capacity for three GN 2/3 trays to the spacious freezers with capacity for fifteen GN 1/1 or 40x60 cm trays.

TECHNICAL DATA:

External dimensions (WxDxH)
Trays capacity (trays pitch mm 67)
Yield *
Max absorbed power **
Refrigerated power ***
Gas
Defrosting system
Working cycle: by time
Working cycle: by probe
Input voltage
Climatic class

	BCB/05	BCB/05P

Electricity supply: 3x1.5 mm² wire complete with Schuko plug; L=4000 mm

ACCESSORIES AND OVERPRICES ON REQUEST:

45100200

Pastry structure for no. 5 60x40 trays, pitch mm 16,5 for BCB/05 (overprice)

45020503

Pair of guides for 60x40 trays structure

45000540

Set of castors Ø 100 mm

45100235

Water cooled condensing unit for BCB/05 (overprice)

45100240

Stainless steel GN 1/1 rack

45100242

Stainless steel 60x40 cm rack

40200560

60Hz frequency (overprice)
